

Use Parental Controls

Here's a few things to consider:

- ◆ **Filtering and blocking:** These tools limit access to certain sites, words or images.
- ◆ **Kid-oriented search engines:** These perform limited filter searches or results for sites and material appropriate for kids.
- ◆ **Limiting Time Software:** This software allows you to limit your child's time online and set the time of day they can access the internet.
- ◆ **Browsers for kids:** These browsers filter words or images you do not want your kids to see.
- ◆ **Monitoring tools:** Software that alerts parents to online activity without blocking access. Monitoring tools can be used with or without the child's knowledge.
- ◆ **Blocking outgoing content:** This software prevents children from sharing personal information online or via email.

The Office of the Attorney General is an equal opportunity provider and employer.

PARENTING IN THE DIGITAL AGE

Keep Your Kids Safe Online

ATTORNEY GENERAL
ASHLEY MOODY

The Risks

Teen Driver Cell Phone Statistics

- ◆ 11 teens die every day as a result of texting while driving.
- ◆ According to an AAA poll, 94% of teen drivers acknowledge the dangers of texting and driving.
- ◆ Teen drivers are 4x more likely than adults to get into crashes.
- ◆ A teen driver with only one additional passenger doubles the risk of getting into a fatal car accident. With two or more passengers they are 5x as likely.

Online Statistics

- ◆ 50% of teens will be victims of cyberbullying.
- ◆ Victims of cyberbullying are more likely to consider suicide.
- ◆ 20% of teens will be sexually solicited online.

Teenagers can be secretive with Cell Phones and Tablets. It is important to remind them of the following:

- ◆ Use caution when scrolling through purchasable items. Some Smartphones do not require a password to complete the purchase.
- ◆ Use caution regarding free public Wi-Fi; if a lock is visible in the URL window, the network is probably secure.

Things You Should Know

Online Games and Chat:

- ◆ Conversations while gaming are uncensored and can be inappropriate.
- ◆ Private information should not be shared with strangers.

Creating Accounts:

- ◆ Username should not contain personal information.
- ◆ Use strong passwords and change them regularly using a combination of letters (capital and lowercase), numbers and characters.
- ◆ Always sign out of account when finished to prevent a hacker from getting into your account.

Privacy and Social Media Settings:

- ◆ In "Settings" you can turn "locations off" to protect your child's location.
- ◆ You should check settings regularly. Some apps can change your privacy settings without your knowledge.

Keep Security Software Updated

- ◆ Downloaded viruses can make your computer vulnerable and compromise your identity.
- ◆ Be suspicious of Pop-Ups, Cheat Sites and File Sharing Sites.

Ask Yourself

- ◆ Has your child stopped socializing with friends after school or on weekends?
- ◆ Does your child talk more about online friends?
- ◆ Is your child receiving packages, gifts or money from an unknown source?
- ◆ Is your child secretive about their activities and replying with generalized responses?

Things You Can Do

- ◆ First "**Get Savvy.**" Educate yourself in the basics of technology.
- ◆ Start communicating early with your child about internet usage.

Teach Your Child Digital Literacy & Ethics

- ◆ Everything they read online is not reliable. Check sources, look at who wrote the information, and ask is he/she an expert or just giving an opinion.
- ◆ Everything they see online is not theirs to take. Piracy, Plagiarism, Digital Cheating, and the use of Copyrighted Information can have legal consequences.
- ◆ Respect the creative work of others.
- ◆ Manners do matter, always be polite online.
- ◆ Information & images when shared can be seen far and wide.
- ◆ Once something is posted online, it's nearly impossible to "take it back".

Encourage Teens with Cell Phones to:

- ◆ Complete any call or text before starting the car.
- ◆ Get directions and try to visualize the destination before starting the car.
- ◆ Check in with friends or parents only after arrival.
- ◆ Pull over to a safe location to make or take urgent calls. Exceptions are made in life or death emergencies. (e.g., calling 911)
- ◆ Remember to set an example when you are driving.
- ◆ Consider having a cell phone contract with your tweens & teens.
